PREFACE

This Corporate Plan is designed to be pragmatic, real and relevant, influencing the university's vital institutional decisions and addressing the priority requirements of both staff and students while sharing the overall vision of the university with its partners for the next five years. This also sets the platform for articulating a set of values guiding our work over the next five years.

The goals structure of the university is slightly amended through the current version of the corporate plan. It implies that, development of university human resources was recognized as a separate goal, because we believe that academic, administrative and supportive staff are the life blood of this organization.

The first, third and fourth goals of the corporate Plan are mainly concerned with the core of what we expect to carry out as a university. It includes the curricula, research, economic and social engagement and indicates how we pursue our goals with the collaboration of the students, staff and other stakeholders. Second goal addresses the human capital of the university while fifth goal addresses the administrative processes and the sustainability of the university.

This corporate plan supports the policy guidelines of the Government and the Ministry of Higher Education as it is in line with the National Higher Education Strategic Management Plan developed by the Ministry of Higher Education.

Situational analysis accentuating the strengths, weaknesses, opportunities and threats followed by the goals, objectives and corresponding strategies to realize them are given in this Corporate Plan. This also gives the present level of performance indicators and the plans for the next five years under the five major goals concerned. Objectives and corresponding strategies of key result areas, implementation responsibilities and resource allocations on annual basis on each activity are also given. Strategies for each activity are presented referring to the corresponding goal and the objectives of key results areas are indicated by corresponding strategy.

With adequate funding, it would not be difficult to realize the aspirations reflected in this Corporate Plan with the cooperation and commitment of staff and students.

I seek the cooperation of all stakeholders for the successful implementation of the envisaged activities in order to achieve the identified goals and objectives.

Finally, I wish to extend my sincere thanks to Prof. C Pathirawasam, the Chairman and all coordinators and members of the Corporate Plan Monitoring Committee for their support and contribution.

Prof. D.M. Semasinghe

Vice – Chancellor

PART A: STRATEGIES AND POLICIES

THE INSTITUTION

The University of Kelaniya, Sri Lanka has its origin in the historic Vidyalankara Pirivena, founded in 1875 as a centre of learning for Buddhist monks. It was one of the two great national centers of traditional higher learning, heralding the first phase of the national movement and national resurgence. With the establishment of modern Universities in Sri Lanka, the Vidyalankara Pirivena became the Vidyalankara University of Ceylon in 1959, later the Vidyalankara Campus of the University of Sri Lanka in 1972 and ultimately, the University of Kelaniya, Sri Lanka in 1978.

Today, the University of Kelaniya, Sri Lanka is one of the major national Universities in the country. It is located just outside the municipal limits of Colombo, in the ancient and historic city of Kelaniya. It consists of seven faculties. These are,

- ◆ Faculty of Commerce and Management Studies
- ◆ Faculty of Computing and Technology
- ◆ Faculty of Graduate Studies
- ◆ Faculty of Humanities
- ◆ Faculty of Medicine
- ◆ Faculty of Science and
- ◆ Faculty of Social Sciences

The Faculty of Medicine is located at Ragama in a land area of 35 acres while the other Faculties are located at Dalugama in a land area of 55 acres.

The main buildings at the Dalugama premises are the Student Centre, Science block, Humanities and Social Sciences building complex, Commerce and Management Studies building complex, Science Lecture theatre complex, Auditorium and ancillary building, the Convocation hall, Aquaculture and Microbiology buildings, ICT Centre, Library and the administrative block. The Faculty of Commerce and Management Studies and the Faculty of Science have their owned furnished auditoriums with a seating capacity of 250 each. The Dharmaloka Convocation Hall can also accommodate a maximum of 1,000 persons at a time. Women's hostels complex and the men's hostel complex are also located within the Dalugama premises. In addition to the main ICT Centre, Faculty computer centers are also

located at each Faculty at Dalugama. There are several computer labs at departmental level also. Three language laboratories are located at the Faculty of Humanities. All Departments of the Faculty of Science and Faculty of Commerce & Management Studies have several teaching and research laboratories.

The Faculty of Computing and Technology (FCT) was established on the 30th of December 2015 by the Gazette notification 1947/24 of the Government of Sri Lanka with three departments, namely, Department of Applied Computing, Department of Computer Systems Engineering and Department of Software Engineering.

The FCT offers two degree programmes from the academic year 2015/2016 for the technology stream students namely, Bachelor of Information and Communication Technology Honours (BICT) and Bachelor of Engineering Technology (BET) Honours. From the academic year 2016/2017 the Faculty will offer B.Sc. Honours in Computer Science for the physical science stream students. In addition to the major degree programmes in computing the FCT is planning to offer joint degree programmes with the other Faculties in the University. All degree programmes will be delivered based on the Learning Centered Education Concept. While improving the quality of learning, the Faculty will also prepare students to compete successfully in the job market. All staff members of the faculty will be able to contribute and update their knowledge as industrial collaboration will also be a major function of the Faculty. The Faculty is planning to propose several Research and Development Centres to conduct research in diverse areas of computing and technology.

At Ragama, the buildings include the administration block, lecture theatre and laboratory complex, Disabilities Studies Unit building, Molecular Medicine Unit building, Pre-clinical building complex and an auditorium with a seating capacity of around 200.

The University has an in-campus student population of about 10,053 undergraduates (Table 1).

The total number of non- academic staff is 758 (as at 31/12/2017).

The academic staff conducts high impact research which significantly contributes to enhance the existing knowledge in various fields such as Humanities, Social Sciences, Medicine, and Commerce and Management.

In the year 2014, 35 academics from the Faculty of Medicine, and four academics from the Faculty of Science received President's awards for Scientific Publications in years 2010,

2011 and 2012, which is considered as the nation's most prestigious awards for research publications

During the period 2004 – 2010, Kelaniya University received grants worth of Rs. 244 million from the Quality Enhancement Fund of the Higher Education Ministry's World Bank funded project of Improving Relevance and Quality of Undergraduate Education (IRQUE) along with the Institutional Block Grant worth of Rs. 91.8 million. Under its successor, the Higher Education for the 21st Century project (HETC project), the University has received funding for 11 academic staff to work towards MPhil/Ph.Ds. The university has received Rs. 70 million under the University Development Grant (Window 1) to carry out improvements in developing English, ICT and soft skills of undergraduates and to promote ethnic cohesion in the university community. External Degree Programme has received Rs. 25 Million under University Development Grant (Window 2) to improve governance and management, quality and relevance, enhance learning resources and learner support services and promote collaboration with state and non-state training instruction. Further, under Quality and Innovation Grant (Window 3), two grants have been award to Faculty of Humanities and Faculty of Science, Rs. 30 Million per each to improve the postgraduate research programmes. Under the Quality and Innovation Grant (Windows 1 & 2) three study programmes in Faculty of Commerce & Management, Faculty of Science and Faculty of Social Sciences have been selected for financial support to improve the quality of undergraduate programmes. The university has submitted proposals for several competitively funded grants under Quality and Innovation Grant (QIG) and Innovatory Development Grant for Arts Students (IDAS) to support undergraduate study programmes and Research Dissemination & Commercialization programme. In 2013 university managed to won the most number of QIG awards of excellence, namely, winning the highest number of grants won by a university, winning grants in all windows and winning the highest grant allocation for a faculty.

In the year 2014, the University of Kelaniya was declared the first national green university in Sri Lanka.

The University of Kelaniya has pioneered a number of new developments in the higher education sector in Sri Lanka. It was one of the first universities to begin teaching Science in Sinhala, and also the first to restructure the traditional Arts Faculty into three separate Faculties of Humanities, Social Sciences, and Commerce & Management Studies. It is also

one of the first universities to introduce the credit based course unit structure for academic programmes. It also has several unique departments not generally found in Sri Lankan University system. These include the Department of Microbiology in the Faculty of Science; Departments of Linguistics, Fine Arts, Modern Languages and Hindi in the Faculty of Humanities; the Departments of Mass Communication and Library & Information Sciences in the Faculty of Social Sciences; and the Department of Disability Studies in the Faculty of Medicine. Further, Faculty of Commerce and Management Studies introduced new specialized degree programmes in Entrepreneurship and Business Technology which are more imperative to the modern world requirements. In addition, the Bachelor of Commerce degree programme offered by the Department of Commerce and Financial Management in the Faculty of Commerce & Management Studies can be identified as the most students' attractive Bachelor of Commerce degree programme in the country.

In keeping with its historic roots, University of Kelaniya is one of the national centers of excellence in Pali and Buddhist Studies and related fields. It has long established and well-developed Departments of Pali and Buddhist Studies, Sanskrit, Linguistics, Philosophy, Sinhala, and Hindi. Thus, University of Kelaniya forms a centre of academic excellence, specializing in modern developments in traditional disciplines. It also retains a close link with its mother institution, the Vidyalandara Pirivena, whose Head is also the Chancellor of the University.

At the same time, the University of Kelaniya has a modern and multi-cultural structure and perspective, with the Faculties of Science, Medicine, Social Sciences, Humanities and Commerce & Management Studies and a strong base in modern languages, including the teaching of Chinese, English, French, German, Hindi, Japanese, Korean, Russian, Tamil, and Modern Linguistics. The broad range of eastern and western languages it offers had led the university to be recognized as a language hub in the country. According to the statistics of the Ministry of Higher Education, University of Kelaniya has the highest number of foreign students among the local national universities.

In 2010, the recommendations contained in all Review Reports sent to the University after Subject, Programme and Institutional Reviews were discussed at several levels and the steps taken to implement these recommendations were reviewed. Special attention was paid to the need of improving the quality of the University's external degree programmes and extension courses. With the backing of proud heritage, the university is driven towards realizing the

vision of becoming a centre of excellence in creation and dissemination of knowledge for sustainable development as it marks its 54th year as a modern university.

SITUATION ANALYSIS

a. Internal Factor Analysis

When the internal organizational environment is considered several strengths and weaknesses that are likely to have implications for the undergraduate and postgraduate education at the University of Kelaniya could be identified.

Strengths

Strengths of the university are identified under eight categories - namely: Uniqueness of the University, Human Resources, Physical Resources, Academic Programmes, External Links, Research and Distinguished Alumni.

▪ Uniqueness

1. Historical Background: The University of Kelaniya has a strong historical background as a seat of higher learning. It has its origin in the historic Vidyalankara Pirivena, which had been established 133 years ago. In keeping with its historic roots, the University is one of the national centers of excellence in Pali, Buddhist Studies and related fields. In addition, it is considered as a Centre of excellence for Languages. Further, when compared with the modern universities, University of Kelaniya is one of the four oldest universities in Sri Lanka. Therefore, there is a high demand for the University of Kelaniya from among potential students.

2. ISO Certification and Quality Accreditations: University of Kelaniya is currently in the process of upgrading the quality standards of all aspects of the university through increased awareness, commitment and orientation towards adhering to the quality guidelines imposed by the Quality Assurance and Accreditation Council, Sri Lanka. University of Kelaniya possesses the first and only ISO certified department (Department of Marketing Management) and the first and only ISO certified Staff Development Unit of a state university of Sri Lanka. They were awarded ISO 9001:2008 quality certification by the Sri Lanka Standard Institute in 2014.

3. First National Green University: University of Kelaniya has remained in the top position among green universities in Sri Lanka ever since it was declared as the first green university according to the green metrics ranking in Sri Lanka to recognize the efforts of becoming a center of excellence in creating and distributing knowledge for sustainable development. Further, university has taken several green initiatives with this declaration. Those include, establishing a strong environmental protection policy and a Green Practices Committee (GPC) to promote sustaining the green practices of the university.

4. Upgraded University Rankings: According to the latest Webometrics rankings, University of Kelaniya is among the top three Sri Lankan universities and has also improved its world ranking from the past.

▪ **Human Resource**

1. Academic Staff:

1. University possesses a highly dedicated, committed and qualified academic staff.
2. Proactive approach on orienting of the academic staff towards continuous learning and knowledge creation
3. High breadth and diversity of the research interests of the academic staff
4. Most of the academic staff members voluntarily take part in University affairs and in student affairs providing them necessary guidance in co-curricular and extra-curricular activities.
5. Highly recognized academic staff members both locally and internationally, mainly due to their high quality research and other achievements.

2. Non Academic Staff:

1. Committed and reliable non-academic staff
2. Unity within the non-academic staff
3. Up-to-date skills and commitment to upgrade the skills

▪ **Academic Programmes:**

1. **The Synchronized Academic Calendar:** The synchronized academic calendar is a factor which has positive implications on academic activities. The academic years of all Faculties at Dalugama premises start on the same day. This has helped the students of any particular faculty to take courses from other faculties. Many courses are offered by the Faculty of Science for non-science students. Many courses are also offered by the Faculty of Commerce and Management Studies to non-management students and by the Faculties of Humanities and Social Sciences to non-arts students
2. **The university offers many demand driven study programmes.** These include, among others, programmes in Commerce, Management, Entrepreneurship, and Business Technology offered by the Faculty of Commerce and Management Studies, the programmes in Economics, Sociology and Mass Communication offered by the Faculty of Social Sciences, the programmes in Tamil and modern languages offered by the Faculty of Humanities and the programmes in Microbiology and Management & Information Technology offered by the Faculty of Science, the programmes in Bachelor of Information and Communication Technology Honours (BICT), Bachelor of Engineering Technology (BET) Honours and B.Sc. Honours in Computer Science offered by the Faculty of Computing and Technology.
3. **The unique programmes to cater student population of the country.** These include B.Sc in Environmental Conservation and Management, B.A. in Conflict Resolution and the degree programmes in several languages, Microbiology, Molecular Biology & Plant Biotechnology, Library Science and Speech & Hearing Sciences (linguistic), Bachelor of Information and Communication Technology Honours (BICT), Bachelor of Engineering Technology (BET) Honours and B.Sc. Honours in Computer Science offered by the Faculty of Computing and Technology.
4. **Offering industry oriented updated courses.** All the courses offered by faculties are directed and developed towards the needs of the industry and the

government sector. Continuous improvements of these courses are done accompanying the changes and needs of the relevant sectors. The “Industrial Training” programmes conducted by most faculties allow the students to be trained and exposed in relevant specialized industries in both private and government sectors.

5. Flexibility and high diversity. Flexibility in selecting courses and high diversity among courses offered is another factor which has serious implications on the university education at Kelaniya. With this flexibility, the students can follow desired course units even from outside their main subject stream. In this way, many students could follow several languages and management course modules and non-science students could also follow science course units. This will not only enhance their knowledge in a multitude of disciplines but also enhance their employability.

▪ **External Links**

The establishment of academic links with reputed international higher education and research institutes is also an important strength of the University of Kelaniya. At present, it has academic links with 39 universities and research institutes in 20 countries. These links have helped in the development of human resources through academic exchange and collaborative research.

▪ **Centers and Units**

University comprises number of units and centers to cater a variety of needs of the undergraduates and the society. Those are listed below.

- **Arts Council:** The responsibility of the Arts Council is to support all activities related to arts in the university and to motivate students with the aim of improving the social cooperativeness and aesthetic taste of the university community.
- **Career Guidance Unit:** The Career Guidance Unit (CGU) plays a key role in preparing the students of the University of Kelaniya for the world beyond the University. Employers, nowadays, look for a range of interpersonal skills such

as effective communication, teamwork, time management and organizational skills.

- **Centre for Distance and Continuing Education:** The CDCE offers External Degree programmes under the faculties of Humanities, Social Sciences, Commerce & Management Studies, Medicine and Science. This academic service was started in 1993 with B.A. (General/ Special) and B.Com. (Special) degree programmes providing more opportunities and access to higher education in Sri Lanka.
- **Centre for Gender Studies:** Centre for Gender Studies aims to bring up the quality of life of the people in the country and to raise a voice against unethical issues.
- **Centre for International Affairs Unit:** The Centre for International Affairs is the first contact point for any international scholar, grant agency, prospective student or university and envisages encouraging and supporting academics and students in their research/ study activities by providing assistance through funding, links with international universities and guidance to meet the university's goal of becoming an internationally recognized leader in the development and implementation of a knowledge-based society.
- **Centre for Sustainability Solutions:** University of Kelaniya established 'Center for Sustainability Solutions' (CSS) to formulate policies and to plan, co-ordinate and manage sustainable issues within the university. The committee consists of academic and administrative staff members of the university with scientific, technical and management knowledge and skills to handle sustainability issues. The activities of the committee are supported by student volunteers from all academic disciplines across the faculties.
- **Communication and Media Unit:** The Media Unit was established with the aim of giving publicity to the academic and development activities of the University of Kelaniya.
- **Coordinating Centre for Students with Disabilities:** The Coordinating Centre for Students with Disabilities (CCSD) aims to be a central coordinating body offering support to all students with disabilities to enable equal access to university education. The remit of the CCSD is to offer students with disabilities

relevant and timely advice, guidance and medical, psychosocial and academic support to promote individual growth and independence.

- **Department of Physical Education Unit:** This unit was established to organize the sports activities for the University community. At present, 22 sports are conducted by the department including baseball, rugby football, chess, wrestling, taekwondo and Judo. In addition, physical fitness programmes, special sports practice programmes, internal and external competition programmes, research and development programmes, and annual performance evaluation programmes are organized by this department.
- **Environment & Development Consultants (EDCON):** This is the “University-Industry-Community Interaction Cell”, which had been established to extend the knowledge and skills of the academia to the industry and the community.
- **Information and Communication Technology (ICT) Centre:** ICT centre is the central service provider of information communication technology facility to the University of Kelaniya.
- **Kalana Mithuru Sewana:** Personal Counseling Unit, named as KALANA MITHURU SEVANA (KMS) was established recognizing the need of students. The primary purpose of this unit is to promote a healthy environment for students of the University and enhance student learning.
- **Research Centers under each Faculty:** The Research Centers of each Faculty are aimed at creating new knowledge through research and continuously improving research skills of staff members.
- **Research Council:** The Research Council was established with the aim of promoting innovation and excellence in research with in the University of Kelaniya.
- **Staff Development Centre:** The Staff Development Centre was established with the aim of enhancing individual and institutional capabilities of the staff within higher education sector in Sri Lanka.
- **University Statistics and Data Monitoring Unit:** USDMU is conducting its own surveys and the requested surveys from the University to support the top level management in order to enhance the quality of the University. Also,

USDMU involve in generating and issuing statistics about the university to internal and external bodies.

- **Physical Facilities**

Physical facilities of the university play an integral part of the students' learning and wellbeing. Furthermore, advances in science and technology necessitate the university to adopt modern infrastructure facilities to improve the quality of teaching and learning. With these aims, university possesses new buildings equipped with state of art technology, furniture, equipment and modern facilities. Further, upgraded computer laboratories and other laboratory facilities with necessary utensils and equipment is a key strength of the university. Other than those, the medical centre, state of art library facilities, sports and recreational facilities are the other highlights of the university.

- **Research**

1. **Research Council** – The Research Council was established in May 2014 with the aim of promoting innovation and excellence in research in the University of Kelaniya. The activities of the Research Council are aimed at encouraging the staff at various stages of their career and disseminating research findings both locally and globally. The Research Council is the policy making and guiding body for research at the University.

2. **Research Databases** – Academics are encouraged to maintain their published research work in the e-repository maintained by the Research Council. This is with the objective of facilitating the knowledge sharing among the academics.

- **Alumni** – University has a number of distinguished alumni with outstanding profiles in both private and government sector organizations. Their service to the country is recognized through the novel concept of “Prasada Sambhawana” introduced by the Vice Chancellor.

Weaknesses

Several weaknesses that have implications on the academic activities have also been identified. These are as follows.

- **Lack of Human Resources**

1. **Insufficient number of teaching staff.** This is one factor which has serious implications on teaching. Sufficient numbers of teaching staff are not provided even for some degree programmes with high demand which have been started recently as a response to national needs.
2. **Insufficient number of non-academic staff.** This is another factor which has serious implications on smooth functioning of the University. Although some services such as cleaning could be out-sourced, there should be sufficient numbers in some categories of cadre such as computer application assistants, technical officers etc. Although the number of buildings as well as the student numbers has increased, there is a much delay in approving the sufficient number of staff cadres. In addition, approval from the General Treasury has to be obtained to fill existing non-academic vacancies.
3. **Insufficient foreign exposure of the academic staff.** In some faculties, the foreign exposure of the academic staff is not sufficient. If all academic staff could be given opportunities to visit universities in the developed world, the experience gained would be highly beneficial for academic development.

- **Lack of Physical and Financial Facilities**

1. **Inadequacy of infrastructure facilities** is also a factor that has serious implications on university education. With the increase in student intake and revision of curricula to introduce the course unit system, the requirement for more lecture hall facilities, canteen facilities, and library and reading room facilities has increased. Although the infrastructure facilities have increased, this increase has not been sufficient to cope up with the demand. One major reason behind this is the limited availability of land.
2. **At present the university is not able to provide hostel facilities to all needy students.** To provide hostel facilities, several houses are rented out every year, placing a heavy financial burden on the University. Lack of residential facilities for staff is another factor that has negative implications on university education. The University has signed several international memoranda of understanding with foreign universities for mutual cooperation. These links have significantly

contributed for academic development. However, there are virtually no residential facilities available for the foreign scholars, who visit the University under these link programmes.

- 3. Lack of supply of financial resources at present.** Main source of funding of the University is the government funds. In addition to that, a percentage of funds are obtained from fee levying programmes conducted by faculties. However, to cater to the needs of the university in enhancing the quality of the academics and the undergraduates the available funds in both ways is not sufficient.

b. External Factor Analysis

Many factors and forces in the local and global environment that are likely to have implication on the undergraduate and postgraduate education at the University of Kelaniya have been identified. These include the following opportunities and threats.

Opportunities

- **Increased Demand for Mid-Career and Postgraduate Education**
 - There is a high local demand for the undergraduate, postgraduate and diploma courses/programmes offered by the University. Some examples for this are the Master of Business Administration, Master of Commerce, Master of Arts, Higher Diplomas in Business, Marketing, Human Resource Management, Accountancy, Finance and other courses in Marketing Management, Business Technology, Mass Communication, Linguistics, and modern languages, Sociology, Electronics, Microbiology, Management & Information Technology and Computer Studies.
 - There is a high demand in the global environment for some subject areas offered by the university, such as Pali and Buddhist Studies and Medicine.
 - There is a high demand for external degree courses offered by the University. The local demand is high from the youths who could not enter a university due to high competition and limited number of vacancies.

- There is a growing demand for research and consultancy and with qualified and experienced staff. The university can play a significant role in providing expertise that supports development activities.

- Its close proximity to two industrial zones is a unique feature of the University of Kelaniya when compared with other universities. This also has implications on the university education as the students are able to get industrial training without much difficulty.

- **More Conversations and Partnerships with the Employers and Foreign Institutes:** The availability of foreign affiliations could be considered as another external factor that has implications on the university education. There are many foreign universities which are willing to cooperate with the University of Kelaniya for mutual benefits. Various disciplines, especially the teaching of foreign languages could be further developed due to these affiliations.

- **Increased Commitment of the Government Towards the Higher Education**
 - **University of Kelaniya is among one of six universities selected** by the Ministry of Higher Education for additional support to bring it up to international standards.
 - **6% of the GDP for Education:** The increased concern of the government for upgrading the education sector in Sri Lanka with its plan to increase the expenditure up to 6% of the GDP.

- **International Offers and Off Campus Study Programmes**
 - The university is currently conducting staff and student exchange programmes with the international universities which enhances the participants' exposure and knowledge. Currently partnership for the staff and student exchange programmes were signed with the Akdeniz University - Republic of Turkey, Chongquin Normal University - People's Republic of China and Universität Siegen, Germany.
 - The undergraduates are encouraged to participate in internship as part of the study programme to enhance the practical knowledge regarding the working

environment and upgrading the skills in order to get prepared for the employment after the graduation.

▪ **Increased Awareness of the General Public on the Quality of the Higher Education**

- The students, government and the general public are increasingly concerned on the quality of the service provided by the Universities. The University Grants Commission has imposed a quality assurance requirement which is well established and functions successfully within the University of Kelaniya. Apart from that, it could be observed that increased awareness of the University of Kelaniya towards acquiring international accreditations for the quality in order to provide a better service to the undergraduates, postgraduates and the nation.

▪ **Increased Concern on the Sustainability of the Environment and the Green Concept**

- The natural environment is a major concern of the world nations at present. Preserving the environment has been a greater challenge within an urbanized environment. In order to strike a balance between the expected service delivery through enhanced physical facilities and sustainability of the environment the University of Kelaniya has taken initiative by overlooking the requirement of the nation and the world.

Threats

- **The growing number of new private institutions:** The growing number of new private institutions with global affiliations will have severe consequences on university education as the graduates produced by local universities will have to compete with them for employment. As such, at the University of Kelaniya, much emphasis is given towards developing the skills required by the outside world by including internship as a course unit in the syllabus, introducing course units on soft development and conducting lectures in English Medium, in order to enhance the employability of graduates.

- **Strong recognition for professional qualifications:** Strong recognition for professional qualifications over and above the degree is also an external factor that has serious implications on university education. As such, most of the courses are continuously being revised in order to produce graduates who would be successful in the competitive world.

- **Uncertainty regarding funds:** Uncertainty regarding funds is another external factor that has serious implications on the university's development. Although funds are allocated at the beginning of the year, the University has faced serious difficulties in getting funds released from the General Treasury. Due to these delays, sometimes, the suppliers have delayed the delivery of equipment and building contractors have delayed their construction work. Further these delays cause difficulties in smooth functioning of lectures due to unavailability of necessary resources. Increasing demand for qualified staff from overseas and local private higher education institutions is another factor which has serious implications on university education. The qualified and experienced academic staff is attracted to these institutions for better salaries and perks.

- **Political interference:** Political interference in student affairs is another factor which has implications on university education. Some of the student groups are backed by outside political groups, sometimes leading to student unrest that disrupts the academic activities.

The opportunities and threats in the external setting and the strengths and weakness of the institution in the internal setting could be summarized as follows.

STRATEGIC INTENTION AND DIRECTION

Core values

The values which the university recognizes as fundamental to its success are excellence underpinned by integrity, collegiality and professionalism. It is these values that help to make the University of Kelaniya distinctive and give it its enduring appeal.

➤ **Commitment to excellence**

Excellence is only one of the defining features of the University of Kelaniya. Other values define the context within which — and the means by which — the objectives will be pursued. Excellence being the core value is embedded in developing, teaching and learning, research, scholarship and service within the university. Converting knowledge into social and economic values contributes to the development of the country in collaboration with the private and government sector with a global perspective. This is achieved by inculcating excellence in all day to day operations in the university.

➤ **Societal responsibility**

University of Kelaniya is entrusted with protecting the interests of all its stakeholders by delivering spirited, creative and contemporary graduates, by engaging in research with dominant economic and human values, and by protecting societal and national values and culture with an international perspective.

➤ **Professionalism**

High standards of performance and behavior are expected of all our staff and students in making their contribution towards the common purpose.

➤ **Integrity**

The University of Kelaniya conducts all its affairs in a transparent and ethical manner that reflects its high standards and demonstrates social and environmental consciousness.

➤ **Equity and justice**

The university upholds equity and justice in dispensing its teaching, learning, research and community development

➤ **Academic Freedom**

The University provides freedom to conduct academic works without any interference.

Vision and Mission

The vision and mission of the university were developed considering the above core values.

Vision

To become a centre of excellence in creation and dissemination of knowledge for sustainable development.

Mission

To nurture intellectual citizens through creativity and innovation, who contribute to the National development

Goals

1. To create a high quality and flexible teaching and learning environment
2. To develop the highest quality faculty and staff to attain the strategic goals of the university

FACULTY/DIVISION: FACULTY OF SCIENCE (ACTION PLAN -2018)													
GOAL 01 : TO CREATE A HIGH QUALITY AND FLEXIBILITY TEACHING AND LEARNING ENVIRONMENT													
1.1	To create and maintain a culture that supports teaching excellence in all study programs	World rank (in Web metrics)	2,816	2,750	2,100	Enhance the physical infrastructure to increase capacity, quality and sustainability of teaching and learning environment	Upgrading all the chemistry undergraduate (of B1 336, B1 221, B1 338 & B1 339) & research laboratories to meet international standards of safety and quality					Dean/Science Head/Chemistry	1,500
1.2	To improve infrastructure facilities	Student satisfaction with regard to	30 %	60%	100%	Introduce innovative and attractive study programs	Upgrade computer laboratory (B2-004/1) to enhance computer based teaching and learning.					Dean/Science Head/Chemistry	400
1.3	To create and maintain a culture that supports teaching excellence in all study programs	Student satisfaction with regard to Lab facilities,	30 %	60%	100%	Enhance the physical infrastructure to increase capacity, quality and sustainability of teaching and learning environment	Renovation of the Bioassay room (B1 325)					Dean/Science Head/Chemistry	500
1.4	To increase the employability of graduates from the university	Number of Postgraduate programs offered through FGS	1	2	3	Revise the existing curricula to meet national and international needs	Provide infrastructure facilities to Postgraduate programmes & certificate courses (i.e.; Masters & Certificate courses for Analytical Chem., BioChem)					Dean/Science Head/Chemistry FGS	4,000

	Objectives	Key Performance Indicator	Present level of performance	Desired Performance Targets (Output)		Strategy	Action Programme	Timeline (2018)				Coordinating Responsibility	Estimate d Inputs and Costs
				Next Year	5 Years ahead			1 st	2 nd	3 rd	4 th	Designation	2018 (Rs' 000)
1.5	To create and maintain a culture that supports teaching excellence in all study programs	Proportion of students in work and/or further study 6 months after graduating	83%	85%	93%	Enhance the physical infrastructure to increase capacity, quality and sustainability of teaching and learning environment	Renovating lecture theatre into student centered environment					Dean/Science Head/Department of Mathematics CGU	N/A
1.6	To increase the employability of graduates from the university	Number of soft skills programs conducted	10	12	15	Provide more opportunities for the development of students' soft skills	Conducting Soft skills development workshops					Dean/Science Head/Department of Mathematics CGU	10
		Number of guest lectures conducted	5	8	10		Guest lectures by industrial and other stake holders					Dean/Science Head/Department of Mathematics	5
1.7	To increase the employability of graduates from the university	Proportion of students who participate in extracurricular activities	60%	70%	80%	Provide students with more opportunities to participate in clubs and societies, together with opportunities for leadership and formal recognition of their extracurricular activities.	Photo competition and exhibition to explore mathematics in nature					Dean/Science Head/Department of Mathematics	80
1.8	To develop relationships with employers to help	Number of workshops	3	6	7	Provide more opportunities for the	Conducting workshops on industry related problems					Dean/Science Head/Department	10
